

SWHIFT Stainless Fabrication, Inc.

"the stainless steel tank people"

WARRANTY

***5 Years for pressure tanks**

***10 Years for non-pressure tanks**

If a failure occurs that is not caused by misuse, electrolysis or damage, SWHIFT will at our option:

Pay for on-site repairs (maximum \$75.00).

Repair at no charge if delivered to an authorized repair center freight pre-paid.

All SWHIFT pressure tanks must be installed with an operational relief valve with a relief pressure no higher than 80% of the factory test pressure of the tank. If the tank is pressurized over 80% of the factory test pressure all warranties are void and SWHIFT assumes no liability for damages or injuries that might occur.

Warranty on T-304 stainless applies to 1.5 ppm or less chlorine.

Warranty on T-316 applies to a maximum of 8 ppm chlorine. 316 is highly recommended for hot water.

By purchasing from SWHIFT you agree to the following:
